SIA MODERATES SPECTRUM AND GOVERNMENT & DEFENSE PANELS AT 2019 SMALLSAT SYMPOSIUM
On Feb 27th, OneWeb announced the successful launch of the first six global broadband satellites manufactured by Airbus, onboard a Soyuz launch vehicle from the Guiana Space Center. Above: At T minus 10 seconds, the Soyuz launch vehicle prepares to lift off with its OneWeb payload of six broadband satellites. For more details regarding the launch, please see the OneWeb launch summary and the SIA Event Calendar below or click on the Smallsat Symposium link.

SIA Welcomes Envistacom as its Newest Member
Envistacom is one of the fastest growing technology companies in Georgia, and SIA is pleased to announce they have joined the Association's growing list of affiliate member companies, "Their expertise in DoD and Cyber also makes them a welcome addition to the Association as SIA continues to expand and suitably represent the growing importance and functionality of the commercial satellite industry."

On Feb 5th, SIA announced that Envistacom had joined SIA as its latest affiliate member. Envistacom is a leading provider of satellite communications and cyber solutions to the U.S. Department of Defense (DoD) and its coalition partners in the aerospace, defense and intelligence communities. In October 2017, the company opened the Envistacom Innovation Center (EIC) in Duluth, GA to facilitate the development of new technologies to enhance the company's communications and cybersecurity capabilities and customer solutions. Already at full capacity, the 35,000 square foot facility provides Envistacom with innovative engineering and testing facilities to enhance the company's communications and counterterrorism capabilities and customer solutions.
