## TRENDS - NASA and Global Space Agencies Harness the Power of Satellites to Document Impact of Pandemic

This month's Trends column continues to focus on the role that satellites, SIA members and space agencies around the world are playing in the fight against the COVID-19 pandemic. As the world continues to endure this unprecedented crisis, satellites are providing a host of communications, business continuity, broadcast, navigation, remote imaging and other vital services critical to public health and safety and community well being. Read the latest initiatives and updates on the SIA website page [HERE](#).

For more details regarding how NASA is utilizing satellites during the pandemic, please visit the Satellites and COVID-19 web page [HERE](#)

#### INTELSAT, PLANET AND SPACEX ANNOUNCE SUCCESSFUL AUGUST SATELLITE LAUNCHES

On Aug 15th, Intelsat announced the successful launch of its Galaxy 30 GEO communications satellite as well as the on-orbit servicing satellite MEV-02. (Pictured above left) Both satellites were launched on board an Ariane 5 launch vehicle from French Guiana. On Aug 18th, Planet announced the successful launch of its SkySat 19, 20 and 21 imaging satellites. SpaceX also announced the successful launch of 58 Starlink broadband LEO satellites. (Above right) Both companies' satellites were launched on board a single Falcon 9 launch vehicle from Cape Canaveral, FL For further information on the launch of these satellites, please click on the SIA Member News page [HERE](#).
