TRENDS - Satellites and COVID-19 Update

This month's Trends column re-focuses on the role that satellites, SIA members and space agencies around the world are playing in the fight against the COVID-19 pandemic. Satellites are providing a host of communications, business continuity, broadcast, navigation, remote imaging and other vital services critical to public health and safety and community well being. Read the latest satellite industry initiatives and updates on the SIA "Satellites and COVID-19" website page [HERE](#).
