## TRENDS - Satellites, Weather and the Climate Change Battle

Welcome To Trends – A regular feature of the SIA newsletter highlighting the latest trends in the Satellite Industry. This month's column is from the desk of Tom Stroup, President of the Satellite Industry Association. With the current White House Administration focused on climate topics and the 2021 hurricane season about to begin, Tom examines the increasingly critical role today's satellites are playing in weather related disaster response and recovery, forecasting and in the battle to mitigate the impact of the world's changing climate.
