SATELLITE IMAGERY AND COMMUNICATIONS INSTRUMENTAL IN FORECASTING AND EMERGENCY RESPONSE FOLLOWING HURRICANE IAN

On Sept 28th, NOAA's GOES-16 weather satellite took this image of Hurricane Ian as it approached the Western Gulf coast of Florida. The hurricane made its initial US landfall near Fort Myers, FL and after crossing the state it made a second landfall in South Carolina. Satellite imaging, remote sensing and connectivity/communications proved invaluable during forecasting and post recovery. (Photo credit - Image courtesy of NOAA and NASA)
