TRENDS - Raising the Bar of Space at the Speed of Innovation

Powerful new capabilities and the next destination for discovery, science and humanity

Welcome To TRENDS – A regular feature of the SIA newsletter highlighting the latest trends in the satellite industry and the Association. This month's TRENDS comes from the desk of Jennifer Warren who is the newly elected Chair of SIA's Executive Board of Directors and is Vice President, Civil & Regulatory Affairs for Lockheed Martin Corporation. In "Raising the Bar of Space at the Speed of Innovation", Ms. Warren examines how continued space innovation will not just impact the space industry in Earth orbit, but the industry's next goal of powerful, new capabilities and the next destination for discovery, science and humanity.

For more details, please visit this month's TRENDS column [HERE](#)
