- **Viasat** and Porter Airlines Sign Agreement to Provide Free Inflight Wi-Fi Connectivity and Entertainment

Amazon announced that on Oct 6th, a United Launch Alliance (ULA) Atlas V launch vehicle lifted off from Space Launch Complex-41 at Cape Canaveral Space Force Station, Florida. It carried two prototype LEO satellites from Amazon's Project Kuiper satellite broadband initiative, deploying them at an altitude of 311 miles (500 kilometers). The launch marked the start of Amazon's "Protoflight" mission. (Photo Credit: Image courtesy of Amazon)
