**Ovzon** On Jan 4th, Ovzon announced the successful launch of its multiple steerable beam Ovzon 3 GEO communications satellite. "We are immensely proud of the fact that Ovzon 3 is the first privately funded and developed Swedish geostationary communications satellite ever to be launched," said Per Norén, CEO of Ovzon. (Photo Credit: Image courtesy of Ovzon.)

**ULA** On Jan 8th, ULA announced the successful launch of its next generation Vulcan rocket from Space Launch Complex-41 at Cape Canaveral Space Force Station. "Vulcan's inaugural launch ushers in a new, innovative capability to meet the ever-growing requirements of space launch," said Tory Bruno, ULA's president and CEO.
